

HW and Report Instructions

- Your submission should have 2 files. Please submit them on eLearning.
 1. A report in MS Word or PDF file with answers to the questions as well as necessary R outputs as screen captures.
 - Please write your report in a neat and structured format.
 - Adjust the size and position of the tables, figures, and plots so that your report is easy for TAs to grade. Do not screenshot the whole screen and copy it to your report. Use screen clipping in word if needed.
 - Please be concise and to the point in your answers. Don't include unnecessary information.
 2. One zipped file including all necessary R program files and data files.
 - The R program files should be able to run as is in the unzipped folder - include suitable library names definitions in the program file, and necessary data files in the zipped folder.
 - You will receive a 0 credit for assignments submitted without the code and output. No exceptions.
- You are allowed to discuss the homework with your fellow classmates as well as refer to any generic online sources. However, each group must complete the homework independently and submit their own original attempt. Copying from others or from past solutions will be considered cheating. A score of 0 will be assigned if it is determined that a student was cheating. Further disciplinary actions may also be initiated.
- Make sure you write all your group members' name and NetID on the first page. We will NOT accommodate adding more members after the submission deadline has passed.
